

Sponsor a Healing Space. Transform a Child's Life.

Personalized Healing Rooms for
Children Facing Medical Challenges

Why It Matters

Children coping with cancer, rare diseases, trauma, and chronic illness often spend long periods at home, sometimes in medicalized or stressful environments. A healing room gives them something essential: a space to rest, recover, and feel safe.

"When we met with you and your team many months ago, we couldn't really see the end result to be as incredible as it is. You listened to every detail of how we described Evan, his needs and you perfectly managed to bring it to life. The colors, the items, the love and care brought to every detail, are so apparent and so moving."

What Your Support Provides

- A healing space for a child
- Furniture, sensory tools, or medical equipment
- Personalized décor and special additions (electronics, seating, murals)
- All materials, labor, and celebration at no cost to the family
- Average room budget: \$5,000

The Need Is Growing

Each year, we receive more referrals than the last.

With your support, we can:

- Reduce wait times
- Complete more room projects
- Provide support to more families through Comfort & Care Kits

A ROOM TO HEAL PROGRAM SPONSORSHIP

A Room to Heal is dedicated to transforming the lives of seriously ill children by creating personalized healing spaces that serve as sanctuaries of comfort, joy, and hope. Research shows that a nurturing home environment plays a vital role in a child's recovery and emotional well-being. For children facing serious medical challenges, a personalized space can significantly improve mood, comfort, and overall healing.

Dream Bedroom Makeovers

When a child is diagnosed with a serious illness, everything changes. Daily routines are interrupted and replaced with doctor appointments or therapy appointments. Children's worries now revolve around their next surgery or treatment. Dream Bedroom Makeovers focus on creating a healthy space (clean air, temperature control, safety) and include modifications to improve functional independence. We create a space where a child can relax, have fun, and be distracted from their daily challenges.

Therapy/Sensory Spaces

Therapy and sensory Spaces allow children with disabilities to practice functional skills in a home setting. Therapy rooms can help develop users' visual processing abilities as well as their fine and gross motor skills, facilitating day-to-day living. Sensory rooms are soothing spaces designed to provide room for individuals to decompress and calm down.

Comfort & Care Kits

A new initiative in 2025, Comfort & Care Kits are for children who may not need a full room transformation but could still benefit from specific items to help them feel supported and comforted. They are also for families who may not be ready for us to come into their homes to complete a room project (e.g., they may be overwhelmed with treatments and doctor appointments or their child may be immunocompromised). Kits are designed specifically for each child to support their medical and emotional needs.
